K12 Application Services

About K12

K12 is a technology-based education company. It offers proprietary curriculum, software systems and educational services designed to facilitate individualized learning for students primarily in kindergarten through 12th grade, or K-12.

Their mission is to maximize a child's potential by providing access to an engaging and effective education, regardless of geographic location or socio-economic background.

K12 provides a continuum of technology-based educational products and solutions to public school districts, public schools, virtual charter schools, private schools and families to transform a student's learning experience into one that delivers individualized education on a highly scalable basis.

Suneratech Service offerings

Oracle EBS Maintenance and Support

SuneraTech provided application maintenance and support services for Oracle E-Business Suite Release 12, through a combination of domain expertise, technology knowledge and global delivery capabilities. Our Application Maintenance and Support services include

- Oracle Application Support
- Major and Minor Enhancements
- Issue resolution and knowledge management
- Integrations with third party applications

BI Maintenance and Support

SuneraTech provides Maintenance, Support and development of OBIEE and ODI with the Agile methodology.

“Integrated 19
applications
around EBS”

Middleware Services

K12 has moved their Legacy Message Oriented middleware (JMS) to a more service-oriented Mule ESB(KSB) which is a Java based open source enterprise solution.

SuneraTech implemented Mules ESB and support for the following applications.

- Total View
- Sales Force
- Oracle EBS
- PEAK
- SAMS
- SMART
- OMS

Testing Services

SuneraTech provides the E2E Testing services for all the Mule EBS Integration projects, triggering all transactions from the front end and validating in different downstream DB's or Queues.

The following projects are supported as part of the service:

- Classroom
- CTE
- Agore
- Q2C

Key Benefits

- Integrated one stop shop for all K12 needs
- Synergies between different applications teams reduced time lags by 50% in resolution of tickets
- Supporting integration between EBS and External Systems
- Utilization of offshore is at 90% resulting in huge savings to the customer
